Print it. Save it. Share it.

Priority	Critical	High	Medium	Low
Description	Must test — blocks release	Should test in every cycle	Test when time allows	Nice to have — cosmetic

How to use: Work through each category before releasing any web feature. Tick the checkbox when the item passes. Flag fails as bugs immediately. All Critical items must pass before release.

Project: _____ Version: _____ Date: _____ Tested By: _____

■ ■ UI & Layout

☐	Check all pages render without broken layout on 1366×768, 1920×1080, 375×812 (mobile)	High
☐	Verify fonts, colours, and spacing match design specifications	Medium
☐	Confirm all images load correctly — no broken image icons	High
☐	Check that all icons are visible and correctly aligned	Medium
☐	Verify responsive breakpoints — mobile, tablet, desktop layouts	High
☐	Confirm no horizontal scrollbar appears on standard screen sizes	Medium
☐	Check page title (browser tab) is meaningful and correct	Low
☐	Verify favicon is present and displays correctly	Low

■ Navigation & Links

☐	Click all navigation menu links — verify correct pages open	High
☐	Verify all breadcrumbs are correct and functional	Medium
☐	Check all footer links work and point to correct destinations	Medium
☐	Identify and fix all broken links (404 errors)	High
☐	Verify Back button behaviour is intuitive across all pages	Medium
☐	Check all CTA buttons (Sign Up, Buy Now, Submit) work correctly	Critical
☐	Verify all external links open in a new tab	Low

■ Forms & Input Validation

■	Submit form with all required fields empty — verify errors shown	Critical
■	Submit form with valid data — verify successful submission	Critical
■	Enter invalid email format — verify field-level error message	High
■	Test maximum character limits on all text fields	High
■	Test minimum character requirements (passwords, usernames)	High
■	Enter special characters (< > ' " &) in all text inputs	High
■	Paste very long text (10,000+ chars) into text fields	Medium
■	Test numeric fields reject alphabetic input and vice versa	High
■	Verify placeholder text is helpful and disappears on focus	Low
■	Check form field tab order is logical (top-to-bottom, left-to-right)	Medium
■	Verify required fields are clearly marked (asterisk or label)	Medium
■	Test dropdown menus — all options selectable, correct values	High
■	Verify date pickers reject invalid dates (Feb 30, past when future required)	High

■ Authentication & Security

■	Login with valid credentials — verify successful redirect	Critical
■	Login with wrong password — verify error message (not user info)	Critical
■	Login with non-existent email — verify generic error (no user enumeration)	Critical
■	Attempt SQL injection in login fields — verify safe handling	Critical
■	Verify session expires after configured idle timeout	High
■	Confirm logout clears session — back button should not restore session	Critical
■	Verify password is masked in login field (not shown as text)	High
■	Check 'Forgot Password' flow works and sends reset email	High
■	Verify HTTPS is enforced on all pages (no mixed content)	High
■	Confirm sensitive data (passwords, tokens) not in URL parameters	High

■ Performance & Reliability

■	Homepage loads in under 3 seconds on standard connection	High
■	Key user journeys complete in under 5 seconds end-to-end	High
■	Images are optimised — no unnecessarily large files (>500KB)	Medium
■	Verify correct HTTP caching headers on static assets	Medium
■	Test application behaviour on slow network (3G simulation)	Medium
■	Confirm no console errors (JavaScript errors) on any page	High
■	Verify 404 page is branded and helpful (not default server error)	Medium
■	Test application with JavaScript disabled — verify graceful degradation	Low

■ Cross-Browser & Compatibility

■	Test all core flows on Chrome (latest)	Critical
■	Test all core flows on Firefox (latest)	High
■	Test all core flows on Safari (Mac)	High
■	Test all core flows on Edge (latest)	Medium
■	Test on iOS Safari (iPhone) — real device or BrowserStack	High
■	Test on Android Chrome — real device or emulator	High
■	Verify touch interactions work on mobile (tap, swipe, scroll)	High

■ Accessibility

■	All images have descriptive alt text (or empty alt for decorative)	Medium
■	All form fields have associated labels	High
■	Colour contrast ratio meets WCAG 2.1 AA (4.5:1 for normal text)	Medium
■	Application is fully navigable by keyboard alone (Tab, Enter, Escape)	High
■	Error messages are announced to screen readers	Medium

Test Summary

Category	Total Items	Passed	Failed	Skipped	Result
UI & Layout	8				■ Pass ■ Fail
Navigation & Links	7				■ Pass ■ Fail
Forms & Validation	13				■ Pass ■ Fail

Authentication & Security	10				■ Pass ■ Fail
Performance	8				■ Pass ■ Fail
Cross-Browser	7				■ Pass ■ Fail
Accessibility	5				■ Pass ■ Fail
TOTAL	58				■ APPROVED ■ REJECTED
